

A PRINTABLE ACTIVITY WORKBOOK

500+ Neuro Activities for Focus & Calm

A big collection of simple, one-task-per-page activities built for kids who have trouble focusing, including children with ADHD and Autism.

Big text, big pictures, low clutter — one activity, one page.

How to Use This Book

1

Print one page at a time (or the whole book).

2

Let your child choose which activity to try — choice reduces resistance.

3

Keep sessions short: 1 to 3 pages per sitting is plenty.

4

Big lines and big pictures mean it's okay to go outside the lines — effort matters more than precision.

5

Use the Calm Breathing and Calm-Down Wheel pages any time your child feels overwhelmed.

6

Coloring pages need an image added — see the Image Placeholder Prompts list at the very end of this book.
